## StockFlow Agency Andrew Bash : F.A.Q.

### **Q. Do I need to download and install anything?**

No. StockFlow is completely cloud-based. You just need an internet connection to access your account and create designs and even access them whenever you want.

### **Q. Is the Commercial License a part of the main offer itself?**

Only for some time. One this special offer comes to end you'd have to upgrade to the Pro Level to get your hands on it.

### **Q. Is there a monthly recurring fee or any other hidden costs that are included?**

No. The whole offer is transparent. It's a one-time fee offer (only for a limited time though). Once this special introductory offer ends...it will be eventually turned into a recurring.

### **Q. I have ZERO designing skills. Will this be useful for me?**

StockFlow has been specifically created for people like us who have no designing skills. That's where Artificial Intelligence comes into play. It compensates for the lack of skills.

### **Q. How does the licensing works?**

StockFlow is a meta search engine with photos, videos, vectors for creative common license. These assets are the property of respective individual or company. Rest of the stock assets are licenses for stockFlow and it's users to use in personal or commercial projects

### **Q. I have another query that is not answered anywhere on this page. What should I do?**

Please Contact Us Here. We will be happy to assist you.
